## Education

### Western Washington University — Computer Science, Honors BS

September 2014 to June 2018 (Expected) GPA: 3.3

Data Structures CSCI 241

Analysis of Algorithms I CSCI 305

Formal Languages & Functional Programming CSCI 301  
<https://github.com/fleetww/wim>

Principles of Concurrent Programming CSCI 322

Computer Systems I CSCI 247

Object Oriented Design CSCI 345

Database Systems CSCI 330

Computer Networks I CSCI 367

Unix Software Development CSCI 352

Social Network Analysis CSCI 424

### Western Washington University — Computer Science, Accelerated Masters

September 2017 to June 2019 (Expected) GPA: 4.0

Operating System Internals CSCI 509 (current)

Automata & Formal Language Theory CSCI 510 (current)

## Experience

### Syrilla Services, Bellevue, WA — Software Development Intern/IT Support

July 2017 to September 2017

- Sole designer & developer using C#, the Entity Framework, and SQL databases to take user input and create meaningful SQL database requests/pushes for a clear and concise display of healthcare plan appeals.
- Small 5 person IT support team, servicing a little more than 50 employees. Included server administration, security analysis, and database management and design.

## Personal Projects

### wim – Terminal text editor halfway between nano and vim (WIP)

<https://github.com/fleetww/wim>

- Sole designer and contributor, using C and the ncurses library to implement a more capable nano with a vim-like interface.
- Bridges gap between nano, which is too basic, and vim, which has too steep a learning curve.

## Skills (most → least)

C, C#, UNIX & UNIX-like environments, Java, SQL, x86/x86-64 Assembly, Python
